Demo

Conclusion

Pros

- Quick Setup
- Familiar to ASP.NET Developers
- Same setup for run and integration tests
- Locally and in CI
- Clearer process, resulting in fewer questions after version update

Cons

- Not fully opensource (dcp)
- watch not yet supported
- Integrationtests Scenario not fully fletched out
- Missing renovate bot support for Container updates

Improved Dev Workflows

- Integration Tests
- Reproducing Bugs
- Onboarding
- Updating dependencies

Thank You
